# WELCOME

Since 1989 we've been designing, manufacturing and installing high performance, beautifully crafted windows, doors and conservatories. throughout Yorkshire, Leeds, Halifax, Bradford, Huddersfield, Wakefield, Castleford, Pontefract, Harrogate, Skipton, York and surrounding areas.

When Paul started Kingfisher it was built with a determination to provide quality products that represent good value for money. The business has since grown into one of the most respected window and conservatory companies in the area, operating with over 100 staff in premises covering 30,000 sq. ft.

He has since grown the business into one of the most respected window and conservatory companies in the area and the fact that the vast majority of domestic business now comes via existing customers or their recommendations is a source of great pride for him.

## WHY CHOOSE KINGFISHER?

### **We Offer Our Services Across North and West Yorkshire**

Based in Leeds, we pride ourselves on offering innovative, high performance products with the traditional customer service values of a family owned business. We have been installing our high-performance doors, conservatories, and windows in Yorkshire homes since 1989.

### **Our Products are Energy Efficient**

There is nothing worse than heat escaping from your home as soon as you turn the thermostat up. That is why our products are all thermally efficient, helping your home to retain its heat. Thanks to efficient glazing and frames, our windows, doors, and other home improvements also effectively minimise noise, making your home quieter and more peaceful.

### **Our Installers Are Highly Experienced**

All our installers have extensive industry experience and are fully qualified. With every installation, we aim to exceed all our customer's expectations. We don't walk away from our customers once a job is completed. In fact, we believe customers are for life and you can even rely on us for assistance and advice beyond our 10-year guarantee period.

### **We Have a Wide Range of Options**

Whether you want to change a small aspect of your home, or benefit from an entirely new living space, our product range has something for every need. We have designed and installed windows, doors, and conservatories in a huge variety of properties over the last thirty years.

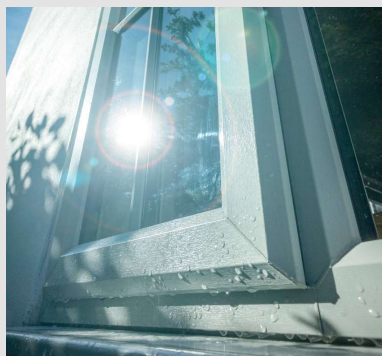

### **Your Home Will Be More Secure**

Our home improvements are so secure, they can achieve Secured by Design accreditation. Secured by Design is a reputable Metropolitan Police initiative that aims to reduce residential burglaries. With a home security upgrade, your home will be safer and you will also benefit from reduced insurance premiums.

### **We Offer Highly Competitive Prices**

Our premium range of double glazed windows, doors and conservatories are available at highly competitive and affordable prices. You'll be able to enjoy a premium standard of quality without having to worry about the headaches of an extortionate price tag. Enhance your home with market-leading products, for less, with Kingfisher Windows.

## PROFILE SYSTEMS

Kingfisher Windows offer a wide range of PVC-U windows and doors to suit all tastes and applications. These award winning products are packed with the most advanced features you will find on the market, and are also available in chamfered, sculptured and flush profiles for maximum choice\*.

- Chamfered profiles are crisp and angular.
- Sculptured profiles are softer with gentle curves.
- Flush profiles are smooth.

\* Some restrictions apply. Please check with an advisor.

- Maximum size with a 4-pane doorset: 5920 x 2360
- Full choice of colours and hardware
- Easy glide, stainless steel track system
- Low sightline co-extruded gaskets
- Midrail option
- PAS 24: 2016 accredited as standard
- Secured by Design accredited option

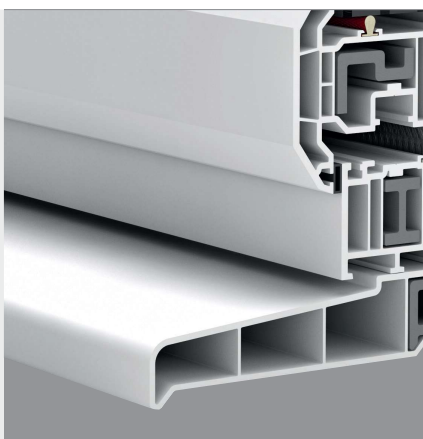

# Ancillaries

More ancillaries than any other system.

Every project is unique. It's something that's reflected in the Optima system. It includes a comprehensive range of ancillaries all colour-matched to the main system components and offering the same levels of quality and durability. It's a range that helps you create perfect projects every time.

## Cills

Our cill range includes options from 85mm to 225mm and every option has matching end caps and couplers. A single reinforcing size made from steel and recycled composite material (RCM) helps keep your stockholding under control.

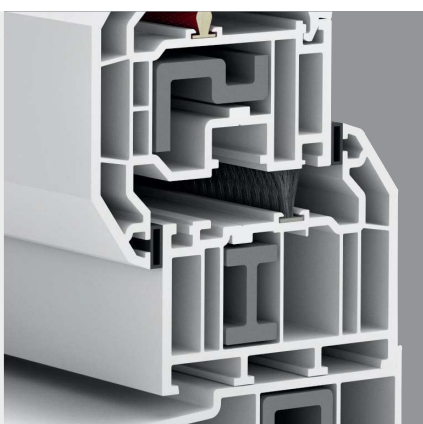

## Couplers

Couplers are available in a range of sizes from 3mm to 29mm.

## Thermal Inserts

Thermal inserts increase the number of insulating chambers and help you deliver enhanced U-values and WERS without the cost of the most highly insulating sealed units. They are made from recycled materials and are simply cut to size and slotted inside the profile during fabrication.

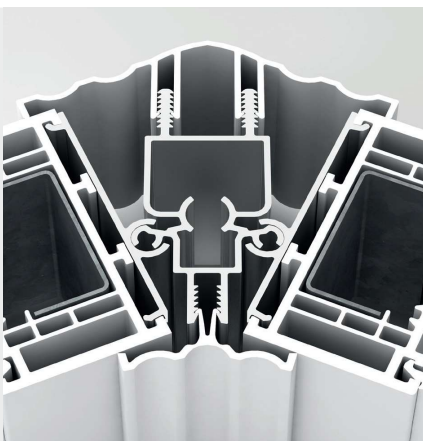

## Packers

Packers are available in four sizes ranging from 15mm to 50mm

## Baypoles

The range of variable, square and fixed angle variant baypoles allows you to create strong, robust and visually appealing bay and bow windows that meet precise customer requirements.

## Astragal Bars

There are chamfered Astragal bars for when installations require the appearance of small individual window panes.

# PVC-U Colour choice

Our Colour Collection brings a wealth of design flexibility to every project.

It features an array of shades from modern classics such as Anthracite Grey and heritage hues such as Chartwell Green to the palettes of the future such as Claystone. Dual colour options are also available, bringing the option of different interior and exterior colours. Profiles are wrapped in our state-of-the-art colour production facility to ensure the quality of finish remains pristine.

## Base appeal

To maximise your product offer further, we also offer complementary base colours on our foiled ranges to deliver higher-value aesthetics. These include white, grey, brown, tan and cream and are designed to perfectly complement our foils and deliver the next level in coloured profile aesthetics.

# ALUMINIUM RANGE

## ***Stellar* Flush Casement Window**

The enhanced Stellar Flush Casement Window has streamlined flush aesthetics on the exterior frame with a classically neat, stepped appearance on the inside.

### **Product features**

- Internal glazing
- Patented Knock-In beads for fast fitting
- Patented Reverse Butt Joint
- Pre gasketed system
- Up to 12% more glass area than a comparable window

### **Technical Information**

- WER rating of band A with double glazing
- U-values as low as 1.0 W/m<sup>2</sup>K
- Meets the latest Building Regulations without foams or special polyamides

## ***Stellar* French Flush Casement Window**

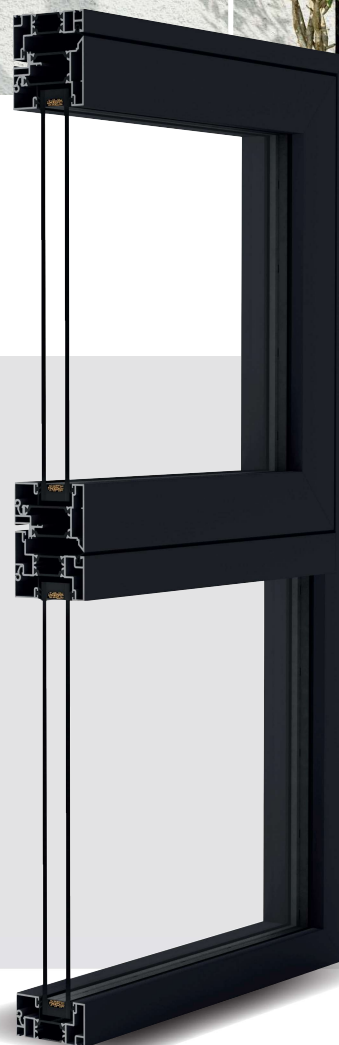

The Stellar Flush French Casement Window extends the streamlined flush aesthetic to both the interior and exterior of the window.

### **Product features**

- Internal glazing
- Patented Knock-In beads for fast fitting
- Patented Reverse Butt Joint
- Pre gasketed system
- Unique thermal break technology
- Ultra slim sightlines

### **Technical Information**

- WER rating of band A with double glazing
- U-values as low as 1.0 W/m<sup>2</sup>K
- Meets the latest Building Regulations without foams or special polyamides

## ***Stellar* Tilt & Turn Window**

The Flush Tilt & Turn Window has a strikingly slim sash that sits flush against its frame creating a dramatic expanse of glass that maximises light.

### **Product features**

- Internal glazing
- Part L compliant by Design
- Robust concealed hardware with multiple locking points
- Tilt mode provides ventilation for improved air circulation
- U-values as low as 0.98 W/m<sup>2</sup>K

### **Technical Information**

- WER rating of band A with double glazing and A+ with triple glazing
- U-values as low as 0.95 W/m<sup>2</sup>K
- Meets the latest Building Regulations without foams or special polyamides

## Ali VU Windows

Ali VU is a super slimline aluminium window with a polyamide thermal break giving impressive thermal efficiency.

### Product features

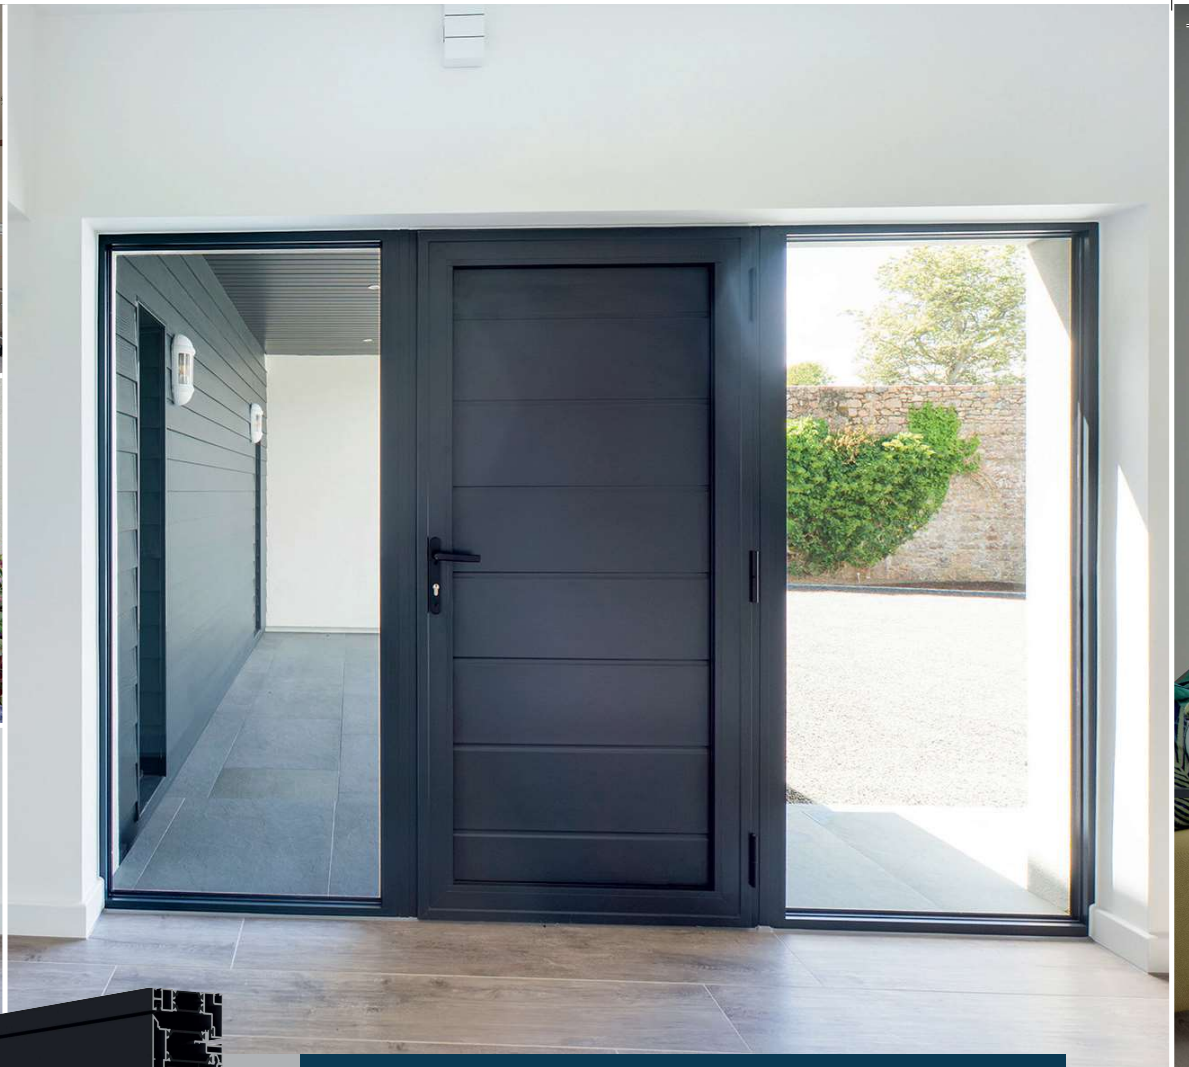

- Super slimline aluminium frame with an enhanced polyamide thermal barrier
- Traditional open out casement, also available either top hung or side hung
- Available in sizes up to a maximum of 1400mmx1400mm, to give the widest views and maximise daylight
- Perfect replacement for heritage style steel windows
- Wide range of options including flush, radius, ovolo, flat faced and more
- Fully security tested to PAS24 Enhanced Security

### Technical Information

- High performance polyamide thermal barrier giving U-values as low as 1.00 W/m<sup>2</sup>K
- Further thermal enhancement is possible
- Designed to achieve a window energy rating of A+

## ***Stellar Flush Door***

The Stellar Flush Door is ideal for standard front or rear entrance doors with a neat flush appearance inside and out.

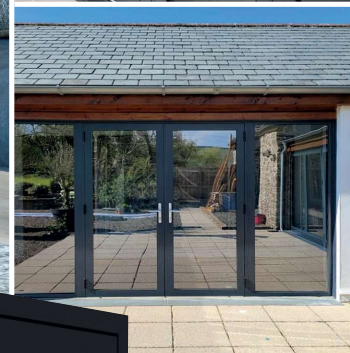

### **Product features**

- Fully Flush aesthetic
- Fully adjustable 3D hinge option
- Open-in or open-out with either full-frame or low threshold option
- Part M compliant low threshold option
- Max size 1000mm x 2400mm
- PAS-24 as standard
- Beads: 28, 32, 36, 44mm

### **Technical Information**

- U-values can achieve 1.2 W/m<sup>2</sup>K with triple glazing
- Meets the latest updates to Building Regulations without foams or special polyamides

## Stellar French Flush Door

The Stellar Flush French Door offers elegant ultra-slim sightlines to let more light in.

### Product features

- Fully Flush aesthetic
- Fully adjustable 3D hinge option
- Open-in or open-out with either full-frame or low threshold option
- Part M compliant low threshold option
- Max size 1000mm x 2400mm
- PAS-24 as standard
- Beads: 28, 32, 36, 44mm

### Technical Information

- U-values can achieve 1.2 W/m<sup>2</sup>K with triple glazing
- Meets the latest updates to Building Regulations without foams or special polyamides

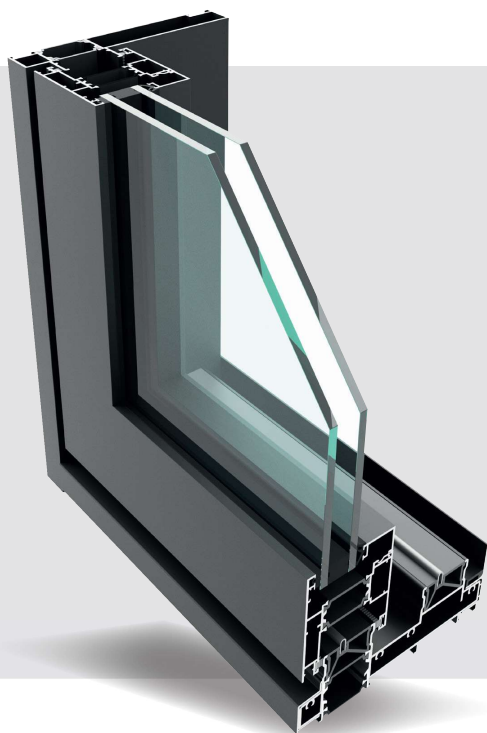

## ***Ali* SLIDE Doors**

A stylish slimline, high-performance range of aluminium inline sliding doors designed to fit all budgets

### **Product features**

- Available in both standard (79mm interlock) and in a slimline version (50mm interlock)
- Slim sightlines for maximum daylight and uninterrupted views
- Available single, double or triple track
- Available for heights up to 2700mm
- Fully security tested to PAS24 Enhanced Security

### **Technical Information**

- Impressive performance achieving U-values as low as 0.90 W/m<sup>2</sup>K
- Featuring a polyamide thermal break

## Ali FOLD Doors

A stylish range of high-performance aluminium folding sliding doors available in a wide choice of configurations and sizes.

### Product features

- Featuring a high-performance polyamide thermal barrier
- Narrow sightlines with matching single and double doors available
- High tech roller design
- Heavy duty version available
- Available in a wide range of configurations and options
- Fully security tested to PAS24 Enhanced Security

### Technical Information

- Designed with a polyamide thermal break for impressive thermal efficiency and low
- U-values

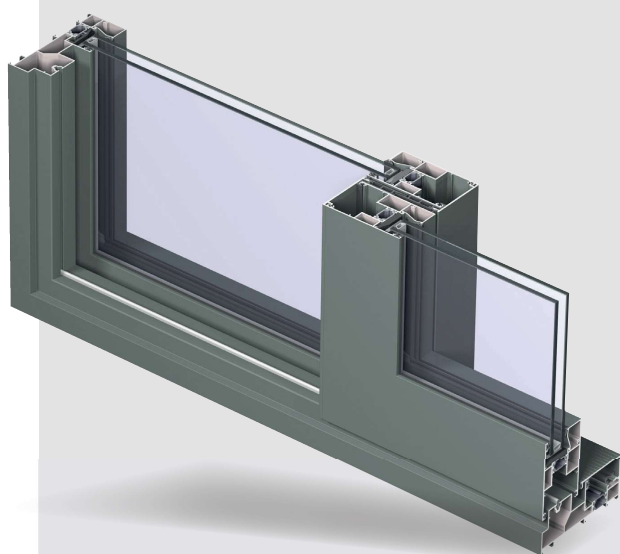

## Reynaers CP130 Sliding Doors

CP 130 is a premium insulated sliding system combining high weather performance with enhanced security and great aesthetics.

### Product features

- Double- and triple-glazed options
- Strong and durable
- Secured by Design accreditation
- Corner solution possible
- U-value as low as 1.1 W/m<sup>2</sup>k

### Technical Information

- Air tightness max. test pressure 4 (600 Pa)
- Water tightness 8A (450 Pa)
- Wind load resistance C3 (1200 Pa)
- Acoustic performance  $R_w$  (C; Ctr) = 35 (-2;-6) dB / 39 (-1;-3) dB, depending on glazing type dB

## The trade supplier you can rely on

We offer market-leading supply only double glazing, including uPVC and aluminium products. Benefit from competitive prices and short lead times, and the best quality every time. Our service is built on professionalism, reliability and respect, we won't let you down so you won't have to let your customers down.

### Quality

Our market-leading range of double glazing options guarantee customer satisfaction.

### Professionalism

We always deliver on time, allowing you to enjoy short lead times and reduced aftersales.

### Competitive Prices

Offer your customers the very best in the industry in an affordable, accessible way.
